

Anchor Intro: October is National Cybersecurity Awareness Month. Reporter Lindsey Bullard has the details on what South is doing to spread awareness.

VO1: October is Cybersecurity Awareness Month. With the internet, you never know who can see your personal information. (7 secs)

SU: It's become easier for hackers and identity thieves to get your personal information online these days. The School of Computing at South is doing several events this month to spread Cybersecurity Awareness and make sure that you can prevent these hacks from happening on your personal devices. (14 secs)

VO2: Student organizations in the school of Computing are participating in these events. One organization is DayZero. (7 secs)

SOT: "...things like that." (14 secs)

Lower Third: Tristen / President of DayZero

NAT SOT: 2 secs mouse click

VO3: Tristen has this advice to help prevent Cybersecurity breaches. (4 secs)

SOT: "...they got 'em all." (24 secs)

VO4: Make sure all of your privacy settings are up to date and stay cyber aware. I'm Lindsey Bullard reporting for Jag TV News. (9 secs)
